

FLY IT SAFE

FLYING DOS AND DON'TS

The flying of an unmanned aircraft (UA) should be carried out in a safe and responsible manner. Before conducting any outdoor activities, users should refer to these flying dos and don'ts:

DOS

- 1 Read the product user manual to familiarise yourself with the UA operating principles
- 2 Fly your UA outside no-fly zones. Visit onemap.sg to learn where are the no-fly zones
- 3 Avoid flying your UA when there are strong winds, rain or when there is poor visibility. Visit nea.gov.sg/weather to determine the weather condition before you fly your UA
- 4 Keep your UA within line of sight at all times
- 5 Check the condition of your UA and its controller, follow the instructions in the user manual
- 6 Land your UA immediately if an aircraft is spotted in the vicinity

DON'Ts

- 1 Never fly your UA over groups of people, public events, or areas full of people
- 2 Never carry hazardous substances on your UA
- 3 Never fly your UA under the influence of drugs or alcohol
- 4 Never fly your UA near any road
- 5 Never drop any item or discharge any substance from your UA
- 6 Never fly your UA in any area where there is an ongoing emergency response effort
- 7 Never fly your UA higher than 200 feet above mean sea level
- 8 Never fly your UA within 5km of any airport or military airbase

Please visit caas.gov.sg/flyitsafe to find out more about the safe use and operation of UA.
